CAREER OBJECTIVE

Frontend engineer seeking to build **accessible, fast product interfaces**; shipped **design-system components** used by 40+ engineers across 6 teams.

WORK HISTORY

Sproutly Health - Frontend Engineer 2022 - Present

- Rebuilt the patient intake flow; completion rate rose from 61% to 89%.
- Cut bundle size 45% via route-level code splitting and dependency audit.
- Drove WCAG 2.1 AA audit remediation - 87 open issues closed in one quarter.

Vistar Media - Associate Frontend Engineer 2020 - 2022

- Shipped the campaign builder used to launch 3,000+ monthly campaigns.
- Introduced Playwright e2e suites, cutting release smoke time from 2h to 12min.

KEY PROJECTS

- A11y Lens - browser extension auditing color contrast (400+ users)
- Built with React + Vite; scored 100 on Lighthouse a11y.

TECH STACK

React, TypeScript, Redux, Tailwind, Vite, Jest, Playwright, Node.js

ACADEMIC BACKGROUND

M.Sc Computer Science, Anna University - 2020
