SUMMARY

Data engineer with 4 years building **batch and streaming pipelines** on GCP; cut **warehouse spend by 38%** while doubling **pipeline reliability**.

EXPERIENCE

DataLane Systems - Data Engineer

2021 - Present

- Migrated 60+ nightly jobs to Dataflow, shrinking window from 5h to 40min.
- Built CDC ingestion from Postgres to BigQuery for 12 product teams.
- Added data contracts with Soda checks, catching 95% of schema breaks pre-prod.

Bluepeak Retail - Junior Data Engineer

2019 - 2021

- Automated daily sales loads; eliminated 3 manual spreadsheet handoffs.
- Modeled the returns mart used by finance for monthly close.

SKILLS

Python, SQL, Airflow, dbt, Spark, BigQuery, Dataflow, GCP, Terraform
