

Ashmit Sharma

Bengaluru, India

✉ ashmityo2005@gmail.com — 📞 +91 98760 23477 — 🌐 LinkedIn — 🚀 LeetCode — 🏠 GitHub

Summary

Software Developer specializing in algorithms and scalable backend systems with strong experience in C++, full-stack development, and problem solving. Solved **900+ problems on LeetCode (1850+ rating, Knight)** with a **9.10 CGPA**. Experienced in building real-world applications, mentoring developers, and leading technical initiatives. Seeking SDE Intern opportunities.

Skills

Languages: C++, C, Python, Java

Web/Backend: Node.js, React.js, MongoDB

Tools: Git, GitHub, Linux, Postman

Core CS: DSA, OS, DBMS, OOP

Competitive Programming: LeetCode 1850+ (Knight), Codeforces 1050, CodeChef 2 star

Libraries: NumPy,

Pandas, Scikit-learn, Matplotlib

Experience

C++ Domain Lead – Coding Club, BMSITM

2023–Present

- Mentored **200+ students** in C++ and DSA, improving problem-solving efficiency and contest performance.
- Conducted **10+ workshops**, increasing participation and coding contest engagement.
- Organized and judged **5+ inter-college contests** with **300+ participants**.
- Led an **Agentic AI workshop** and served as a **hackathon judge**, evaluating AI-based solutions.
- Built a responsive website of an International business, reducing manual coordination effort by **40%**.

Projects

Food Analyzer – AI-Based Nutrition Tracking System

Node.js, React, ML APIs

- Built an AI system to **recognize 100+ food items** via image/text and generate real-time nutritional analysis.
- Processed **calories, proteins, and 10+ nutrients** with backend APIs, achieving **1s response time**.
- Designed a **recommendation engine** analyzing daily intake to improve diet balance by **30% (simulated)**.
- Implemented daily tracking for **50+ users (test data)** with insights on deficiencies and excess intake.
- Developed scalable REST APIs handling concurrent requests and modular AI integrations.

PromptUp – Unified Generative AI Platform

Node.js, React, APIs

- Built a platform enabling **4 AI models** to generate responses simultaneously, improving productivity by **75%**.
- Reduced prompt iteration time by **50%** via unified workflows and optimized UI.
- Engineered backend for concurrent API handling and efficient response aggregation.

Blockchain Drug Traceability System

Solidity, Ethereum, IPFS

- Developed a system for **end-to-end drug traceability** across supply chain stages.
- Implemented smart contracts ensuring **tamper-proof verification**.
- Integrated IPFS for decentralized storage, improving transparency and data integrity.

Education

B.E. Computer Science and Business Systems

2023–2027

BMS Institute of Technology and Management, Bengaluru

CGPA: 9.10

Higher Secondary (12th Grade) – Sacred Heart Convent School, Ludhiana

93.7%

Achievements

- Finalist — TCS TechBytes Regional Quiz (2024).
- **LeetCode Knight (1850+ rating)** with 900+ problems solved.
- 3× Hackathon Winner (blockchain and cybersecurity domains).
- 3× Coding Competition Winner among 100+ participants.
- Organized college fest events with **500+ attendees**.
- Led a team of **30+ members** for large-scale event execution.
